

William Terry

Tezza48is@gmail.com

W.Terry@UOS.ac.uk

DOB: 01/07/1996

Qualifications

BA Hons: Computer Games Design

9 GCSEs from A to C:

Maths: A, English: C

Maths: D, Physics: D, Chemistry: D (A-Level)

Music: C (AS-Level)

Specialist Skills

Programming Languages

C#, C++, Unreal Engine Blueprints, HLSL, GLSL, Java, Python, HTML/CSS/JS

Software

3DS Max, Photoshop, Visual Studio, Unity 3D, Unreal Engine 4, Monogame, Git, SVN, Jira, Zenhub

Education

2014 - 2017

BA Hons Computer Games Design at University of Suffolk

2007 - 2014

The Royal Hospital School, Holbrook

Experience

University of Suffolk

2018 - Ongoing: Disco Kitty

Originally created for Ludum Dare, Disco Kitty is a physics puzzle game where the player manoeuvres uncooperative cats to the dance floor so they can boogie their paws away.

2017 – 2018: Procedural Vegetation Tool

Tool for Unreal Engine 4 that can populate a landscape actor with vegetation procedurally. There is a focus on exposing C++ only functions in the engine as Blueprint nodes to make the tool more user friendly make more features of UE4 accessible to non-programmers.

2017 – 2018: Unicorn Button

Gamified sound button app.

2017: Ubisoft brief (Adversarial Physics Game)

Working as part of a 2-person team on a brief written by Ubisoft for a Design Masterclass module at University.

2016 – 2017: Icebreaker (Horror Game)

Working on a 4-person team creating a short horror game in Unreal Engine 4 for a Group Project at University.

2016 – 2017: Rendering Engine

I wrote a Rendering engine in C++ using DirectX 11 as a part of my Dissertation.

2015 – 2016: Managing two Group Projects

Managed both a group of 3 students and co-managing a group of 2 students, working on 2 Projects using Unity 3D. I used Jira and Agile methodology to manage and track progress on the project.

2015 – 2016: Text Adventure Game/Engine

I created a text adventure in C# as part of a programming assignment, the engine uses an input parsing algorithm I designed to mimic the input handling used in the game Zork.

2015 – 2016: Creating a level for Unreal Tournament (UE4)

Working in a team of two to design and create a level for the TDM game type.

2015: STEMs weekend.

Teaching children 11+ about Arduino, robotics and programming.

2014 - 2015: Working on two Group Projects.

Working on two Games using Unity 3D. The projects were both managed using Jira/Agile and Subversion.

Game Jams

Ludum Dare 40 Compo: Herding Cats on Rollerskates

Global Games Jam 2015, 2016

Royal Hospital School

2013 – 2014: CCF Navy Head of Section

I attained the rank of Cadet Coxswain. As the head of section I planned and taught lessons for the other members.

Programming Club

I co-ran a programming club teaching Python to other students and some members of staff.

ABC (Anti Bullying Committee)

As an ABC member I was part of a group of students in the senior year. Groups were trained in helping other students that were being bullied, we also helped other students with other problems such as homesickness and other issues that may be affecting their wellbeing.

CAT (Community Action Team)

As a member of CAT, I took part in the Wolverstone Project: Using my skills as a dingy sailor to teach children and adults with mental and physical disabilities to sail; as well as participating with other charity events and fundraisers.

Hobbies and interests

Video Games/Design, Programming, 3D Modelling, Music/DJing, Acting/Singing, Roller Derby.
